Fishing is world famous in the area lakes and rivers, presidents and movie stars have been known to cast a line here. The area is also a flyover for numerous species of waterfowl. Outdoor enthusiasts will find many undiscovered treasures to explore in this valley.

The soil is rich and water plentiful, providing for a thriving agricultural community. We are known for our “Fall River Wild Rice,” a grower-owned cooperative, as well as for the cattle, hay, strawberry plants, and mint produced here.

We have very cozy lodges and motels, a good choice of restaurants, equestrian and rodeo events, a Clark Glasson designed and built golf course, the Fort Crook Museum, white water rafting, artists and galleries. Seasonal events include a Christmas parade of lights, pioneer demonstrations, bike rides, golf tournaments, food festivals, and the famous Intermountain Fair.

There are several state parks in the area including McArthur –Burney Falls Memorial State Park which has a 129 ft high spring fed waterfall that flows into Lake Britton. Camping, boating and water recreation are popular activities at Lake Britton.

Ahjumawi Lava Springs State Park, located north of McArthur is unique in that it is accessible only by water. The waters which come together are Big Lake, Tule River, Ja-She Creek, Lava Creek, and Fall River. Together they form one of the largest systems of fresh water springs in the country. The area is rugged and home to many species of wildlife year round.

The Pacific Crest Trail crosses many back roads in the area as it passes through Lassen Volcanic National Park, overseen by Lassen Peak (elev. 10,457’). North of the park the PCT follows the Hat Creek Rim toward Mt. Shasta (elev. 14,179’), which defines the north-state skyline.

Surrounded by mountains the Fall River Valley is home to friendly people, wildlife, wildflowers, and wild rivers. The Fall River Valley Chamber of Commerce welcomes visitors to sample some of the unique opportunities for entertainment, recreation and relaxation in an area that showcases the best of Northern California.

Located between Mt. Shasta to the north and Mt. Lassen to the south lies the beautiful Fall River Valley. The area is home to abundant wildlife, produces diverse agricultural products, has countless recreational opportunities and supports a community that offers small town comforts.
atmosphere make this destination unique. The championship design features large bentgrass greens, multiple tee areas, and well-manicured fairways with generous landing areas.

Schools
The Fall River Joint Unified School District is located in Northeastern California and is comprised of two elementary schools, two junior-senior high schools, two continuation high schools, and four community day schools, to accommodate students from kindergarten through twelfth grade. For complete details visit them online at: www.frjusd.org

Community

Medical/Healthcare
Fall River Valley offers a full range of medical and health services including full service hospitals, dentists, chiropractic, and pharmacies to name a few

Mayers Memorial Hospital
The hospital provides extensive emergency, diagnostic, surgical, and obstetric services. Other departments and programs of the hospital include a Cardiac Rehabilitation Program, Alzheimer treatment and care, Registered Dietitians, a clinical laboratory and Hospice.

www.mayersmemorial.com

Airport
The Fall River Mills Airport has a modern 5000’ lighted runway, taxiways, 9 bay hanger building with rest rooms and pilots lounge, and self service fuel dispensing.

Golf Course
Although Fall River Golf Course is tucked away in peaceful Northeastern California, it is frequently rated one of the favorite courses to play anywhere. The course lays out over slightly rolling terrain, through pine and juniper forests and past shimmering lakes. Abundant wildlife, great views and a country
### Historic & Scenic Places to Visit

**A** Fall River Lake  
Fishing, and watersports

**B** Lake Britton  
Fishing, and watersports

**C** Big Lake (Trout Lake)  
Trout, Bass, and catfish; ducks and geese, watersports

**D** Hatchet Mountain Vista Point  
Located approximately 3 miles West of Burney on Highway 299E, the Vista offers a beautiful view of Burney and the surrounding mountains.

**E** Pit River Falls Vista  
Located 2 miles West of Fall River Mills on Highway 299, the Vista overlooks a deep gorge and the Pit River Falls.

**F** Crystal Lake Fish Hatchery  
Located on Baum Lake near Cassel, the hatchery plants approximately 2,500,000 catchable-size and fingerling fish on a year-round basis.

**G** Hat Creek Park  
Hiking trails, picnic area, and wild trout stream along Highway 299 between Burney and Fall River Mills. The park is located next to Chalk Mountain made up of decomposed sea life called diatomaceous earth.

**H** McArthr-Burney Falls Memorial State Park  
Located approximately 18 miles from Fall River Mills on Highway 89, the park offers swimming and boating on Lake Britton, picnic grounds, and camping sites. The breathtaking 129 feet high falls are surrounded by a self-guided nature trail. Smaller picturesque falls are located throughout the area. Contact the Chamber for more information.

**I** Fort Crook Museum  
The museum's main building, fashioned after the historic round barn near Little Valley, was built by local residents under the auspices of the Fort Crook Historical Society. The contents of the museum's four building complex tell the story of the Indians and early settlers of this area. Included here are six completely furnished rooms of antique furniture, a blacksmith's shop, the old Fall River jail, a room containing early farm implements, and a fine collection of Indian artifacts. A picnic area is adjacent. The museum is open May to November from 1-5 PM. No charge for admission.

**J** Glenburn Church  
Located on McArthr Road approximately 8 miles from Fall River Mills, the Glenburn Church, built in 1886, is still heated by a pot-bellied stove. The picturesque building, with Mt. Shasta and the old Creighton flour mill in the background, has been the subject for many artists and photographers.

**K** Caves  
The Subway Cave is located 1/4 mile north of the junction of Highways 89 and 44. The cave, formed 2000 years ago from flowing lava, provides over 1,000 accessible feet to explore (bring a coat and flashlight). The Popcorn caves are south of Fall River Mills; the Mayfield and Ice Caves are located to the north.

**L** Medicine Lake & Glass Mountain  
Located 33 miles off Highway 89 northeast of Bartle, the area has camping, boating, fishing, and unusual volcanic terrain. The road is closed in Winter to mid-June.

**M** Lassen National Volcanic Park  
The northwest entrance at Manzanita Lake is located approximately an hours drive from the Intermountain Area. The park contains 150 miles of foot trails and over 50 back country lakes and streams. The Manzanita Lake entrance provides access to areas for ski touring and snowshoeing; there is a downhill ski area near the southwest entrance. The Lassen Park Road is closed between the ski area and Manzanita Lake from late October to late May. Admission is charged.

**N** Ahjumawi Lava Springs State Park  
Hiking, picnicking, camping, and lava formations. An important archaeological and historical area located on Big Lake. Access by boat only.
